## **microsol**<sup>®</sup> **bio-autofog**

- ✓ total-release automatic aerosol-fogger against **moths**
- ✓ with **natural pyrethrum**
- ✓ free from synergists
- ✓ on the list of organic farming resources in Germany

# The one and only BVL-approved automatic aerosol-fogger without synergist (PBO).

## microsol® bio-autofog

The **only** total-release **automatic aerosol-fogger without PBO** which is authorised by the BVL in Germany and which may also be used in the presence of openly stored products (up to 10 times).

Included on the list of organic farming resources in Germany. **THE** preparation of choice for application in organic production silos. No more conflicts with laws, regulations and directives! Fulfils the requirements of regulation (EU) 2018/848 on organic production and labelling of organic products.

Pure Pyrethrum preparation, formulated without synergist. **microsol®-bio-autofog** is the only preparation of its kind which has successfully mastered the efficacy tests of the registration procedure against moths. The aerosol-fogger operates standing upright as well as up side down.

Very practical application in small and medium-sized rooms as well as in silos.

The spraying process can be interrupted at any time. This makes it possible to dose the aerosol exactly or to use the fogger again.

**Type of preparation**  
total-release automatic aerosol-fogger

**Active ingredient(s)**  
nat. Pyrethrins 8 g/l (1, 15 w/w)  
(Chrysanthemum cinerariaefolium, ext.)

**Application rates / dosage**  
grain (stored open):  
against adult harmful moths  
max. 10 x 1 tin per 1.000 m<sup>3</sup>

stored products (stored open):  
against adult harmful moths  
max. 3 x 1 tin per 1.000 m<sup>3</sup>

**Hazard symbol**  
GHS02, 07, 09

**Registration / authorisation / acknowledgement**  
Plant Protection Act: 006408-60,  
BAuA - German biocides registration no.: N-41666

**Packing units**  
500 ml tin, 15/25 tins per carton

Technical details

## all important details at a glance:

- ✓ can also be used for open (unprotected) stored goods
- ✓ knock-down effect on moths present in the treated rooms
- ✓ suitable for use in organic farms
- ✓ on the list of organic farming resources in Germany
- ✓ with overhead function for hanging into nets for treatment of silos
- ✓ 10x for cereals (barley, oats, rye, triticale, wheat)
- ✓ 3x for cereal products, processed oilseeds, nuts, dried fruit and tobacco
